

**BE A DIFFERENCE MAKER**

**LIVE UNITED**

## What's Raised Here Stays Here

Difference Makers across our community are committed to creating a measurable impact in the lives of children, families and individuals in Hancock County through the United Way. UWHC helps one in four people in our community. Instead of focusing on one single cause or issue, we focus on several, helping the community as a whole; this way one donation goes to our community's most pressing needs and also to those that are less obvious but just as important. The services vary widely, but they're each extremely important to the people who need them. This level of helping is possible because thousands of people from across Hancock County generously make donations. They know their money helps our whole community - sometimes even people they know. It's neighbor helping neighbor because the money raised here stays here.
